

Decision 06-02-027 February 16, 2006

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Bernard Cabute and Darryck Saterfield dba Mountain View Limousine and Airport Shuttle Service for authority to operate as an on-call passenger stage corporation between points in San Mateo and Santa Clara Counties, to and from San Francisco, Oakland and San Jose International Airports and to establish a Zone of Rate Freedom.

Application 05-11-010  
(Filed November 15, 2005)

**O P I N I O N**

**Summary**

This decision grants the application of Mountain View Limousine LLC (Applicant), a limited liability company, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF) pursuant to Pub. Util. Code § 454.2.

**Discussion**

The application, as amended by letter dated January 4, 2006, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in San Mateo and Santa Clara Counties, on the one hand, and San Francisco (SFO), Oakland (OAK), and San Jose (SJC) International Airports, on the other hand. Applicant states that because of continued growth in Silicon Valley, the demand for airport shuttle service is increasing. It sees its proposed service as part of the region's ongoing economic development and expansion.

Applicant desires to offer its clients affordable, quality transportation service that will be available 24 hours a day, seven days a week. Service will be provided initially using a late-model 7-passenger van. Additional equipment will be added in the future as needed. Attached to the application as Exhibit C is Applicant's unaudited balance sheet as of November 2005, that discloses assets and net worth of \$54,859 (including cash of \$35,000).

The proposed fares, as shown in Exhibit A of the application, range between \$14 (Brisbane – SFO) and \$79 (Gilroy – OAK/SFO). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares under \$30 and \$15 above and below the proposed fares of \$30 and over. The minimum fare will be \$5. Applicant will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in its service area. This highly competitive environment should result in Applicant pricing its services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on November 18, 2005. Applicant served a notice of the application to the involved cities, counties, and airports, and to the public transit operators in the service area.

In Resolution ALJ 176-3162 dated November 18, 2005, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3162.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

### **Assignment of Proceeding**

Richard Clark is the assigned Examiner in this proceeding.

### **Findings of Fact**

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in San Mateo and Santa Clara Counties, on the one hand, and SFO, SJC, and OAK, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares under \$30 and \$15 above and below the proposed fares of \$30 and over, as shown in Exhibit A of the application. The minimum fare will be \$5.
4. Applicant will compete with PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in its operations. The ZORF is fair and reasonable.
5. No protest to the application has been filed.
6. A public hearing is not necessary.
7. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

### **Conclusions of Law**

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.
2. The request for a ZORF should be granted.
3. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

4. Since the matter is uncontested, the decision should be effective on the date it is signed.

5. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
